

Third update of early emergences of moths at Selborne

This table continues the comparison (*antea*: 220) between my earliest observations of non-hibernatory species in 1992-94 with those in 1995-1997. The m.v. light was run here on just over 320 nights during each year of the survey. Of these next 42 species, 33 arrived earlier in 1995-97 than in 1992-94. One species shared the same earliest date in both periods. Eight species were up to a month earlier than is usually expected.

Species	1995-1997	1992-1994	MBGBI imago
2061 <i>Spilosoma lutea</i> (Hufn.)	24 Mar 97	25 Apr 93	May-Jul
150 <i>Adela reaumurella</i> (Linn.)	20 Apr 97	16 May 92	May/June
1853 <i>Eupithecia dodoneata</i> (Guen.)	20 Apr 97	26 Apr 94	Apr-Jun
1776 <i>Colostygia pectinataria</i> (Knoch)	29 Apr 97	30 Apr 93	May-Sep
1883 <i>Acasis viretata</i> (Hb.)	29 Apr 97	19 May 94	May, Jun
1920 <i>Odontopera bidentata</i> (Cl.)	30 Apr 95	11 May 93, 94	May, Jun
1769 <i>Thera britannica</i> (Turn.)	1 May 95	20 May 94	May-Jul
2102 <i>Ochropleura plecta</i> (Linn.)	2 May 95	9 May 94	Apr-Jun
2160 <i>Lacanobia oleracea</i> (Linn.)	2 May 95	15 May 94	May-Jul
2492 <i>Herminia grisealis</i> (D.&S.)	2 May 97	14 Jun 94	Jun-Aug
2003 <i>Notodonta ziczac</i> (Linn.)	3 May 95	5 May 95	May, Jun
1722 <i>Xanthorhoe designata</i> (Hufn.)	4 May 97	17 May 92	May, Jun
1738 <i>Epirrhoe alternata</i> <i>alternata</i> (Mull.)	4 May 95	22 May 93	May, Jun
1902 <i>Petrophora chlorosata</i> (Scop.)	4 May 95	30 Apr 93	May, Jun
2380 <i>Charanyca trigrammica</i> (Hufn.)	4 May 95, 97	16 May 94	May-Jul
1174 <i>Epiblema cynosbatella</i> (Linn.)	6 May 95	19 May 94	May-Jul
1957 <i>Lomographa bimaculata</i> (Fabr.)	6 May 95	29 Apr 94	May, Jun
1999 <i>Stauropus fagi</i> (Linn.)	6 May 95	10 May 94	May-Jul
2214 <i>Cucullia chamomillae</i> (D.&S.)	6 May 96	18 Apr 1994	Apr-Jun
247 <i>Tinea trinotella</i> (Thunb.)	7 May 95	23 May 93	Apr-Jul
925 <i>Phtheochroa rugosana</i> (Hb.)	7 May 95	20 May 94	May-Jul

Species	1995-1997	1992-1994	MBGBI imago
1076 <i>Celypha lacunana</i> (D.&S.)	7 May 95	22 May 93	May-Aug
1728 <i>Xanthorhoe fluctuata fluctuata</i> (Linn.)	7 May 95	1 May 94	Apr-Sep
1887 <i>Lomaspilis marginata</i> (Linn.)	7 May 95	13 May 93	Jun, Jul
1979 <i>Mimas tiliae</i> (Linn.)	7 May 95	25 May 93	May, Jun
2281 <i>Acronicta alni</i> (Linn.)	7 May 95	8 Jun 93	May, Jun
1846 <i>Eupithecia nanata angusta</i> (Prout)	8 May 95	11 May 94	Apr-Jun
1981 <i>Laothoe populi</i> (Linn.)	8 May 95	5 May 94	May, Jun
2089 <i>Agrotis exclamationis</i> (Linn.)	8 May 95	13 May 93	May-Jul
2147 <i>Hada plebeja</i> (Linn.)	8 May 95	5 May 94	May-Jul
1011 <i>Pseudargyrotoza conwagana</i> (Fabr.)	10 May 97	9 Jun 93	May-Sep
2221 <i>Shargacucullia verbasci</i> (Linn.)	10 May 95	6 May 93	Apr, May
2450 <i>Abrostola tripartita</i> (Hufn.)	10 May 95, 97	24 May 93	May-Jul
1904 <i>Plagodis dolabraria</i> (Linn.)	11 May 95	23 May 93	May, Jun
2014 <i>Drymonia dodonaea</i> (D.&S.)	11 May 97	10 May 94	May, Jun
465 <i>Plutella porrectella</i> (Linn.)	12 May 97	19 May 92	May-Jul
17 <i>Hepialus lupulinus</i> (Linn.)	13 May 97	23 May 94	May-Jul
1356 <i>Evergestis forficalis</i> (Linn.)	13 May 97	17 May 93	May-Oct
1727 <i>Xanthorhoe montanata montanata</i> (D.&S.)	13 May 95, 97	13 May 93	May-Jul
1752 <i>Cosmorhoe ocellata</i> (Linn.)	13 May 97	22 May 92	May, Jun
1813 <i>Eupithecia haworthiata</i> (Doubl.)	13 May 97	9 Jun 94	Jun, Jul
1773 <i>Electrophaes corylata</i> (Thunb.)	15 May 97	26 May 93	May, Jun
